

A photograph of a modern yacht at sunset. The yacht is white with a curved upper deck and a lower deck with large windows. A woman wearing a hat is standing on the lower deck, looking out at the ocean. The sky is a mix of orange, yellow, and blue. The text is overlaid on the upper part of the image.

Crestron Marine Technology

Elegant control and automation systems
perfectly tailored to your lifestyle

Luxury automation for your private oasis

The Crestron Experience

Life on the waves is driven by a spirit for adventure. With Crestron aboard you have the technology to live without compromise. A yacht is a perfect home away from home. So enjoy the same elegant, connected lifestyle of comfort and convenience at anchor, in the marina or out on the ocean. Open up your technology horizons. This is the start of a new adventure.

There is a simple reason why Crestron is the undisputed leader of the marine and home automation industry – we deliver the best user experience by far. Crestron is the one and only company that designs, manufactures and supports the full spectrum of automation products and solutions to ensure unparalleled performance and reliability for you, your family and your guests.

Our mission to provide the best user experience possible is at the heart of everything we design, including:

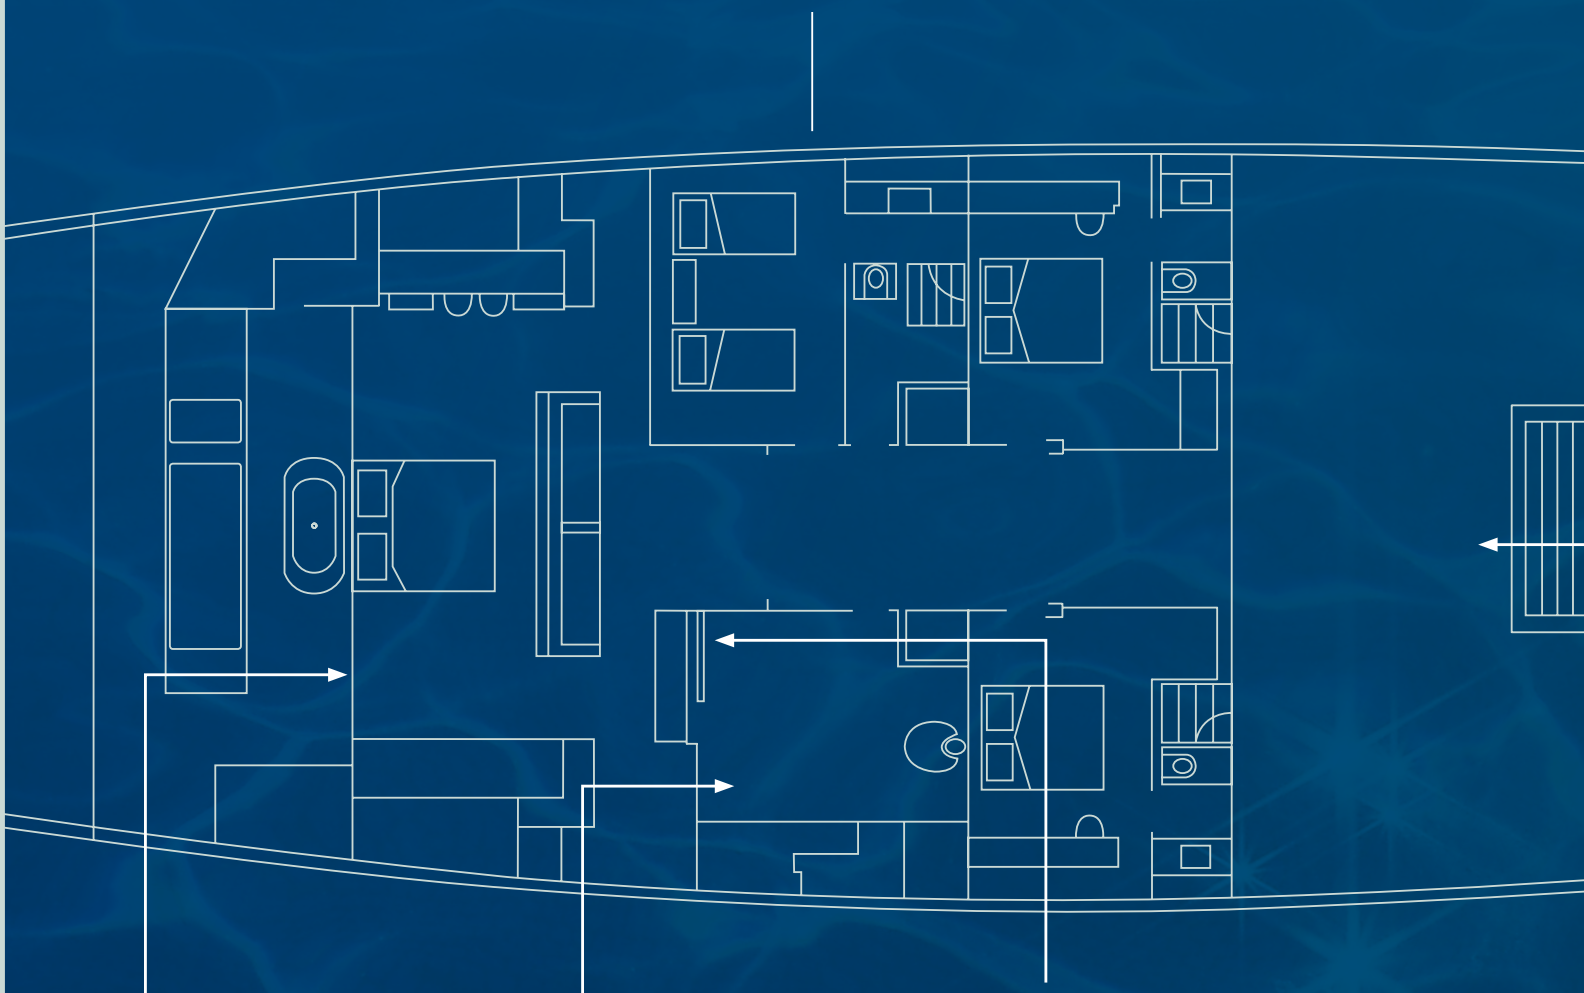

- Lighting control
- Motorized shades and drapery
- Audio
- Private theater and video distribution
- Touch screens and remotes
- Mobile control
- Thermostats and sensors
- Security
- and much more

Wall mount 5"

Unparalleled Performance, Reliability, and Personalization

Crestron is the only company that designs, manufactures and supports all of the products in your complete marine automation system

Touch screens

Control your environment with beautifully designed, easy to use touch screens – control lighting, adjust the temperature, put on your favorite track all at the tap of a touch screen.

Audio

Crestron makes entertaining truly effortless. Set the mood for the party with one touch. Want different music playing out on the deck than in the dining area? It's easy with Crestron on board.

Video

Whether you're watching your favorite show on cable TV, streaming a blockbuster movie, or playing a cutting-edge game in 4K Ultra HD, one touch ensures the screen you're viewing is optimized for whatever content you choose.

Lighting

Once the day's done, reach for a movie experience to beat the multiplexes – snuggle up as the screen drops, the lights dim, then head off to a whole new world.

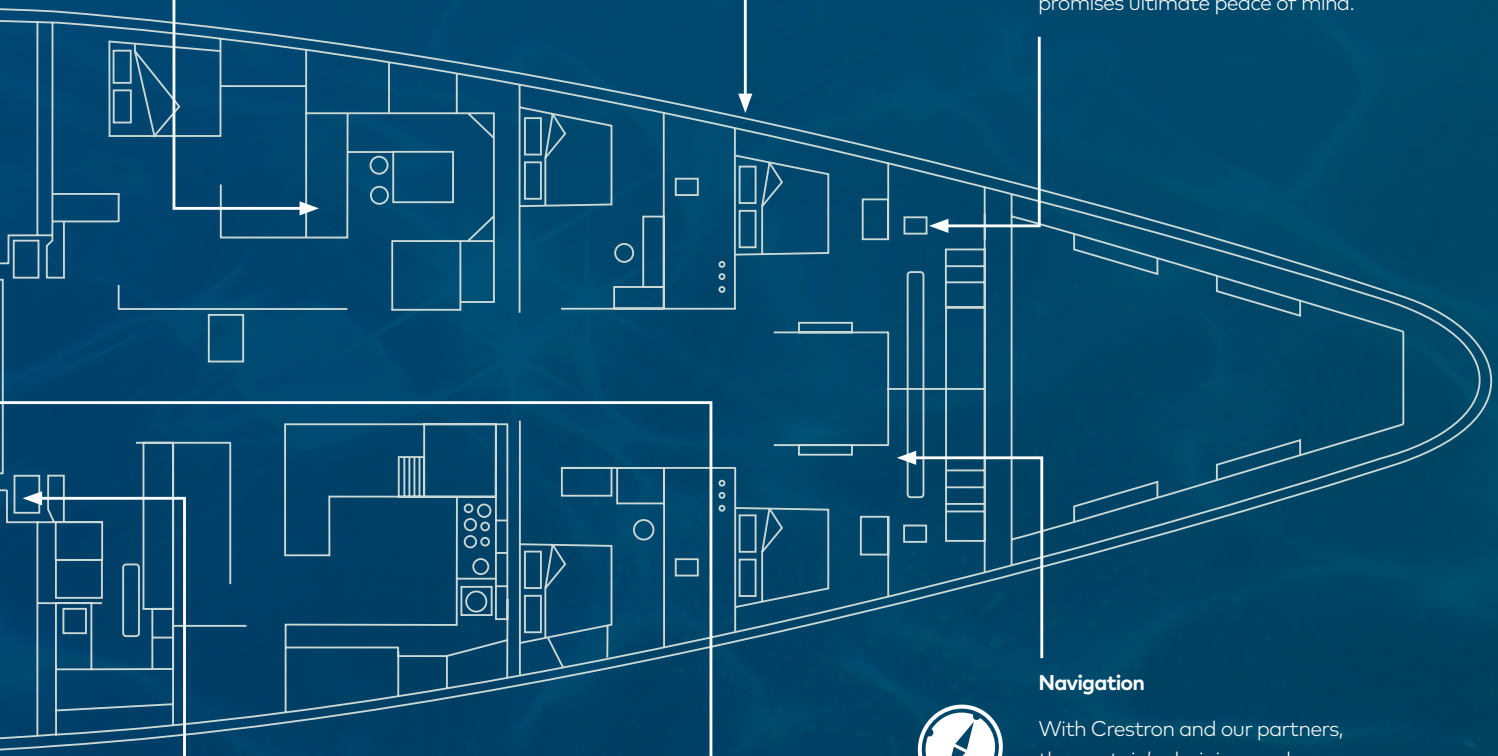

Shades

With our stunning designer fabrics, elegant hardware and world-class technology Crestron motorized shades transform any room into a more spectacular space.

Security

Keep a closer eye on your yacht, whether on land or at sea. The freedom to control your security and monitor CCTV remotely promises ultimate peace of mind.

Remotes

Communicate, control, entertain, play – at the touch of a button. Waterproof units even dive in with you.

Navigation

With Crestron and our partners, the captain's chair is anywhere you are. It's easy to track your route, monitor the weather and check for hidden reefs. So sit back and enjoy the ride.

Take a dip

Temperature a bit cooler in the mornings? Turn up the temperature of the pool from the comfort of your bed, then just dive in and enjoy a pre-breakfast swim.

Where simplicity's a statement

All-in-one seamless connectivity

Your yacht is your sanctuary, wherever adventure takes you. Imagine lights automatically guiding you and your guests as you step aboard. After a day of new discoveries, imagine how – with just a single touch – the lights dim, shades close, the screen turns on and your favorite movie begins. Imagine your yacht, responding to your every need.

With integrated lighting, audio, video, environmental systems, networks and communications, navigation interfaces and security, Crestron creates the contemporary solution for the modern yacht.

Indulge in luxury with a single touch of a button, with solutions that integrate and control the various technologies found on modern yachts. Then enjoy the peace of mind of global support to back it up.

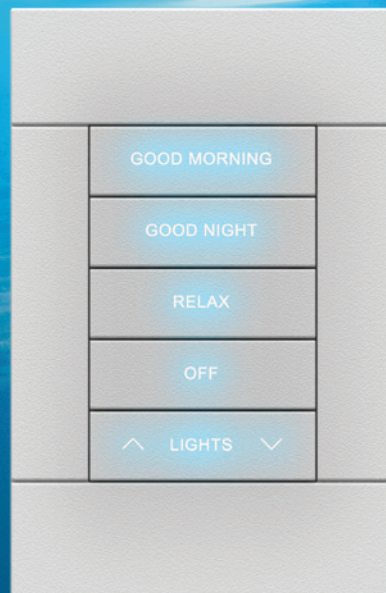

We believe a user interface should be as slick as it is functional – a touch screen layout as beautiful as it is practical. Our intuitive touch screens do just that. It's beautiful, simple control, bringing your entire yacht's ecosystem into one place for complete control and oversight.

designed for simplicity

Where you can dive into detail

Set the perfect scene for all your needs

Crestron systems are designed for people, by people and we appreciate that not all tastes are the same. That's why we always keep a close eye on the detail. Whether you prefer to control your environment by touch screen, keypad, or handheld remote they are all designed to integrate effortlessly into your lifestyle.

Crestron Horizon™ Keypad with illuminated etching

This level of control is all you need to create the perfect ambiance for any occasion. Thanks to convenient pre-set scenes you can even set the mood with a single tap. Because Crestron makes all of the components in your system, there's never any delay waiting for controls to respond – your lights dim

instantly, shades adjust silently and your favorite artist starts playing through our high-performance speakers.

All that's left is to sit down and enjoy all those special moments aboard your marine sanctuary.

A photograph of a sophisticated office space. In the foreground, a pink upholstered armchair with light-colored legs sits on a patterned rug. Behind it is a large, light-colored wooden desk with a black leather office chair and a desk lamp. The background features built-in shelving with warm lighting and a framed painting on the wall. The ceiling has recessed lighting and a large square light fixture.

Where design is in your hands

The bespoke choice

We believe beauty and choice should extend beyond the conventional boundaries... at sea, at home, at work and at play.

Crestron system controls combine beauty with functionality. Exceptional features and easy programming offers the ultimate in intuitive fingertip control – and our global network means we can support you the world over.

Better yet, you're in complete control of how your system performs – and looks. Rose gold touch screen to match your watch? Of course. Sleek and functional, Crestron touch screens, keypads and wall panels are available in a huge variety of finishes to complement your decor and your taste.

Discrete wall mounted keypads become almost invisible, waterproof units dive in with you, while beautifully designed touch screens make control a pleasure. Our controls are as flexible as the automation systems they command. Put simply, your Crestron system can be as unique as you are.

Crestron Signature Series custom designed 15" touch screen

Mobile Control

Always at your command
wherever you happen to be

Keep your finger on the pulse of your super yacht and your other properties with the one and only Crestron app. Turn up the heat before you step on board or on a chilly night or let in a guest to your beach house while your out at sea. Your Crestron systems are always at your command wherever you happen to be.

Go beyond the horizon

The only limitation is your imagination

You don't need to see the technology – or understand how it works – to know your super yacht has evolved. Just smile and enjoy the difference. Know the very best products and cutting edge technology is invisibly connected, working intelligently to perfect every voyage.

Having spent 45 years in designing, commissioning and crafting the world's finest intelligent marine automation systems, we've learned a lot about what's possible.

We've listened carefully to adventurers like you, and worked with the best manufacturers in the industry to create an expansive range of elegant, intuitive, high-performance products that meet the unique challenges of the marine environment. From fingertip control to wireless technology

and the ability to seamlessly integrate with your yacht's navigation, communication and environmental controls.

At Crestron, we don't just see the future, we build it, craft it and define it. For those who won't compromise on perfection. For those who know the sky is not the limit.
